

# PRODUCT COMPARISON

Soft Landings tile has been developed over the past three years, after extensive testing we are able to offer it to consumers with our complete confidence. Our tile gives you the safest pool deck surface available. Our tiles are SAFE, soft, slip resistant, attractive and easy to install, non-absorbent and chemical resistant. They may be installed on new or existing surfaces. Because our tiles are flexible, they will cover cracks and prevent the crack from transferring through the tile as hard materials will.
