

PRODUCT DATA

Extensive testing has been performed on our tile, including slip resistance, flame and smoke spread, water and chemical resistance, UV and Ozone stability, mold resistance, all with excellent results. Along with all of these great attributes it looks and feels great.

Soft Landings tile are approximately 2 feet square and sell for \$4.25 per square foot FOB St. Paul, MN 55116.

MATERIAL

Soft Landings Products are manufactured with a patented blend of materials and chemicals to produce soft decorative tile. This blend and process results in micro closed cell material which is waterproof, chemical resistant, UV and Ozone stable. The tiles are approximately 24" square X 3/8" thick and may be produced in various patterns and colors.

ADHESIVE

Hybond Flooring, single set 177 by Sovereign Specialty Chemicals (data sheet upon request) Follow manufacturers recommendations for floor preparation before applying adhesive and tile.

STORAGE

Store tiles out of direct sunlight, slight warping may occur if exposed to direct sunlight before permanent installation.

INSTALLATION

Surface preparation per adhesive manufacturer instructions. Do not use excessive amount of adhesive as the excess will tend to bleed up between the joints in the tile. Place tile on wet adhesive taking care not to leave gaps between the tile. The tiles have square edges that are intended to butt up to each other. The tiles can be easily trimmed with any sharp razor or utility knife.

WARRANTY

Soft Landings Products are warranted against manufacturers defects for a period of one year from the date of purchase.

TESTING

ASTM 1028-96 Coefficient of friction when wet **0.92**

ASTM E648-03 Critical Radiant Flux **Class 1** interior floor finish rating
